

# Snake Craft

## Supplies

- Paper plate
- Markers
- Red construction paper
- Scissors
- Glue stick
- Eye stickers

## Instructions

1. Cut paper plate in a spiral – for younger children it helps to pre-trace the design so it's easy to follow with the scissors
2. Stick on eye stickers
3. Cut a tongue shape out the red construction paper and use the glue stick to glue on to the head of the snake
4. Use markers to create your own snake design
5. Optional: use a string to hang the snake in a window
